ARL-5050-FLAT-3001 RGB 5V

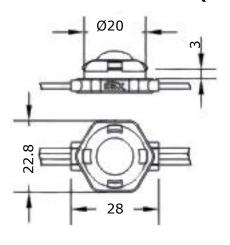

SPECIFICATION:

Parameters	Technical Index
Voltage	DC5V
Current	60mA
Power	0.3W
Color	Full color
View angle	160°
QTY Bunch	50pcs
Working Condition	-40 ~ +60°C

FEATURES:

- Using ultra-high brightness SMD 5050LED, green, safe, energy saving and environmental protection
- Injection molded and glue perfusion with new and fashion shape, keeping customer needs and feelings, join in more user-friendly design and technology.
- Using secondary optical lens design, bigger view angle and better uniformity, overall effect is much better, simultaniously with anti-UV, waterproof, anti-corrosion, addity and prolongs LED lifespan.
- 5050SMD LED single lamp can easily to cut and connect.
